

KLEVER®

THE KS SERIES, STAINLESS STEEL KS-101SS SAFETY CUTTER

Our KS-101SS Safety Cutter features a 100% stainless steel handle, carriage and blade providing you with a durable safety cutting solution for any clean environment! Good for use in food processing, pharmaceutical, and many other industries.

NSF Certified for Food Contact Areas!

Clean the carriage and handle, replace the blade!

Integrated blade-locking system

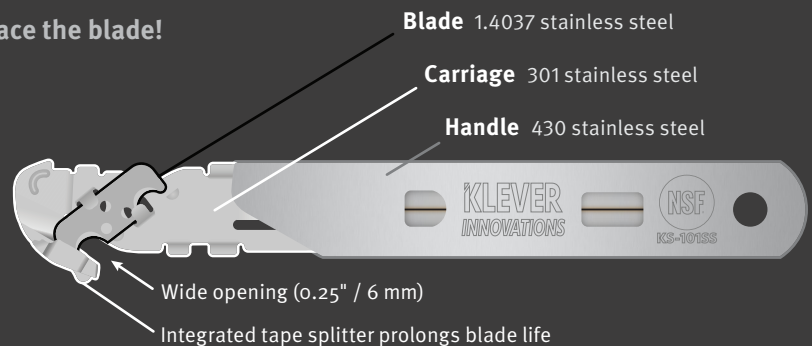

Flip blade for second side use!

Tool-free blade changing

Replacement blades available

The KS Series Cutters are great for cutting light- to heavy-duty material such as paper/plastic bags, stretch wrap, film, tape, plastic banding, boxes and more.

Recessed blade reduces cut injuries and protects against damaged goods.

THE SAFETY AND FEATURES YOU EXPECT!

Ambidextrous

Metal Detectable
